

# Supplementary table S1. List of all purifications.

In total 2,166 successful purifications were performed using 1,993 distinct TAP-fusion proteins. 139 entry points were purified more than once as a quality check on the overall procedure. The first column gives the name of the TAP-proteins used as entry points. The second column provides the purification identifier (for the purchase of the TAP-strains at Euroscarf: [http://web.uni-frankfurt.de/fb15/mikro/euroscarf/col\\_index.html](http://web.uni-frankfurt.de/fb15/mikro/euroscarf/col_index.html)). The last column gives the list of proteins that co-purify with the TAP-entry points.
